Post100%DesignSubmittal_Permit_PermitNumNV0024228_Draft1.pdf; Memo regarding Discharges of Groundwater
Dewatering Activities and TP TMDL.pdf

Amelia,

Please ignore last two draft versions of this permit (NERT- NV0024228) I sent for your review. This Friday the permittee submitted their 100% design documents for review. I finally got some design specifics I was waiting for and hence I could re-edit the draft.

The version I am attaching with this mail is the one I need your feedback/draft approval for. I included the Water Quality bureau's TMDL related memo again too (no changes in this memo).

I can imagine if you would be coming back to tons of emails & work, but since this project was originally scheduled to commence by June 1st, appreciate if you can review this permit at your earliest convenience.

The other permit (Lake Mead Hatchery – NV0020192) I submitted for your review has lower priority than this one for now, but would help with two other hatchery permits I am currently reviewing.

Thanks

Sharada Maligireddy
